ABOUT THE PROGRAM

The Certificate III in Process Manufacturing is intended for advanced production workers who are currently employed and use a range of equipment directly related to producing products. This qualification is for:

- Production support workers in manufacturing; filling the vital production support roles
- Employees who operate across more than one category within process manufacturing or 'specialised processes' when required.

Our Process Manufacturing program consists of the following units:

Core Units:

-  MSMENV272 Participate in environmentally sustainable work practices
-  MSMWHS200 Work safely
-  MSMSUP210 Process and record information
-  MSS402051A Apply quality standards

Elective Units:

-  MEM15003B Use improvement processes in team activities
-  MEM15004B Perform inspection
-  MEM16006A Organise and communicate information
-  MSMWHS100 Follow OHS procedures
-  MSMWHS110 Follow emergency response procedures
-  MSMWHS300 Facilitate the implementation of OHS for a work group
-  MSMOPS101 Make measurements
-  MSMOPS102 Perform tasks to support production
-  MSMOPS200 Operate equipment
-  MSMSUP100 Apply workplace context to own job
-  MSMSUP101 Clean workplace or equipment
-  MSMSUP291 Participate in continuous improvement
-  MSMSUP303 Identify equipment faults
-  MSMSUP382 Provide coaching/mentoring in the workplace
-  MSMSUP383 Facilitate a team
-  MSS402040A Apply 5S procedures
-  PMBHAN103C Shift materials safely by hand

Note: Elective units may vary based upon student and/or client requirements and can be discussed with your Calibre representative prior to enrolment and commencement of training.
