

FBP30117 Certificate III in Food Processing

Calibre Training and Development (RTO# 32394) offers an industry focused course giving participants the opportunity to learn new or formalise their skills and experience by undertaking a nationally accredited course FBP30117 Certificate III in Food Processing which is recognised across Australia. Completion of this course will further develop and formalise existing skills and knowledge as well as acquiring additional knowledge and skills.

Participants will gain a fundamental knowledge of food safety guidelines and procedures including how to monitor food quality programs and WHS in addition to production and packaging processes and systems.

Calibre Training and Development is a Pre-qualified Supplier of the Queensland Government Certificate 3 Guarantee Program, which enables us to offer this program with subsidised fees.

WORKPLACE DELIVERY

The Food Processing Program will be delivered at your workplace ensuring content can be customised and tailored to your specific training needs.
